

USEFUL TIPS

WHY USE **PAPER** FOR PACKAGING PROTECTION?

Paper and cardboard packaging

have gained popularity as **environmentally friendly and cost-effective** alternatives to plastic packaging. They offer reusability, curbside recyclability, provide various design and printing options to **enhance your branding**.

Doverco offers a diverse range of paper packaging solutions. This includes **eco-friendly paper mailer, kraft paper, corrugated cardboard and paper void**

fill systems. To help you understand the different varieties of paper and cardboard packaging and their advantages, we have created this guide:

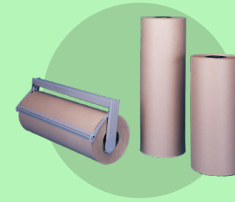

Bubble Wrap® Paper Mailer

This 100% paper mailer is the perfect combination to insure protection and sustainability. The BUBBLE WRAP® Brand Paper Bubble Mailer is a curbside **recyclable paper** mailer that provides cushioning protection through embossing technology.

Paper Mailer

Certified to Sustainable Forestry Initiative® (SFI) standards, our kraft mailers are made with **100% recycled paper fibers**. These mailers are reusable and can be recycled with mixed paper in curbside bins.

Kraft Paper for Wrapping Products

Kraft paper is known for its **exceptional strength and durability**. It offers reliable protection for various products during transportation and storage. It is effective in minimizing the risk of breakage or damage to fragile items. Additionally, **Kraft paper is often more cost-effective compared to other protective packaging materials**.

Corrugated Cardboard Rolls

Extremely effective for the inner wrapping of fragile goods and for the outer wrapping of odd-shaped items. Often used as the first layer of wrapping before a layer of Kraft paper. Single-faced corrugated rolls are a **light and flexible alternative to heavier and stiffer double-faced corrugated**.

Paper Void Fill System Fasfil®Jet and Fasfil®1500

Our Sealed Air's innovative FasFil® Jet and Fasfil®1500 **convert paper of different weights in manual, programmed-length, and auto-repeat modes**. Our kraft paper is responsibly sourced from 100% recycled paper packaging material and is curbside recyclable.

By embracing paper and cardboard packaging, you can enjoy their eco-friendly attributes while benefiting from their versatility and branding potential.
