

# USEFUL TIPS

## DO YOU KNOW HOW TO **RECYCLE** YOUR PACKAGING SUPPLIES?

### How do I recycle bubble wrap packaging?

Bubble wrap is a highly reusable packaging material that **can be utilized multiple times before it reaches the end of its life cycle.**

When the time comes for recycling, the process can be **conveniently carried out at your local recycling center.**

### How do I recycle stretch film?

Pallet wrap (stretch film), is typically composed of LDPE (low-density polyethylene), which is a plastic material that **can be easily recycled through curbside recycling programs & local recycling centers.**

Pallet wrap stands out as one of the **most recyclable types of plastics** due to its minimal exposure to contaminants.

### Is polyethylene foam recyclable?

Polyethylene foam, made from LDPE, **can also be recycled at the curbside and recycling centers.**

These types of packaging supplies are a recyclable option that **contributes to sustainable waste management practices.**
